

Release Notes
Kurzweil 3000® for Macintosh Version 5.0.19
12 September, 2013

WHAT'S NEW?

5.0.19 ENHANCEMENTS, CHANGES AND RESOLVED ISSUES

In All Editions:

- Various bug fixes.

GENERAL NOTES

- Product editions are also downloadable from: www.kurzweiledu.com/k3mac
- The Kurzweil 3000 for Macintosh Trial is now on separate media, and can no longer be activated to full product.
- All documentation is available in PDF format in the Documentation folder on the product DVD, as well as at <http://kurzweiledu.com> under the Download Center.

View the [SYSTEM REQUIREMENTS](#).

SCANNER ENHANCEMENTS

When using OS 10.6 through 10.8, upon selecting *Scan > Scan New Document*, or pressing the Scan icon, a pop-up box will appear. This pop-up allows you to preview your scan.

To use this pop-up box, we suggest the following actions:

Kind: Select *Text* for a black-and-white scan, or *Color* for a color scan*

Resolution: *300 dpi*

Size: For simple full-page scanning, de-select *Use Custom Size*, and change *Auto selection* to *Off*

Overview button: Press this button to preview your scan.

Scan button: Press this button to scan. The document will appear in the Kurzweil 3000 document window.

If you would like to continue to view the scan pop-up box while scanning multiple pages, select *Always Show Dialog* in the Kurzweil 3000 Scan menu.

*Sometimes, *millions of colors* or *billions of colors* might be displayed in the pop-up upon selecting *Text* for a black and white scan, which can cause an invalid scan. If this happens, change the pop-up **Kind** temporarily to *Black and White* and then select a **Kind** of *Text* again; the colors should no longer be seen in the pop-up, allowing for a valid scan.

INSTALLATION NOTES – Standalone Edition

Have your serial number(s) ready. You can find the serial number on the product box. Remove the currently installed version of Kurzweil 3000 by moving it to the Trash before installing the new version.

Do one of the following:

Place the Kurzweil 3000 DVD into the DVD drive and double-click the Standalone edition icon.

Or go to www.kurzweiledu.com/k3mac to download the installation file.

Drag the **Kurzweil 3000** application file to the **Applications** folder.

If Kurzweil 3000 will be accessed by a number of users, drag the **Sample Files** folder to the **Shared** folder, located in the **Users** folder. This will make the sample documents easily accessible to all users.

INSTALLATION NOTES – Web License Edition

Before You Install:

Be sure to have an Internet connection.

You will also need the Username and Password from your site administrator.

Installing Web License Client:

Do one of the following:

Place the Kurzweil 3000 DVD into the DVD drive and double-click the Standalone edition icon.

Or go to www.kurzweiledu.com/k3mac to download the installation file.

Drag the **Kurzweil 3000** application file to the **Applications** folder.

Web License Log In:

To Log in: In the Welcome window, enter your Username and Password.

UPGRADING FROM PREVIOUS KURZWEIL 3000 VERSIONS

(You may optionally drag the Kurzweil 3000 Version 5 application to another location or move your previous copy of Kurzweil 3000 to an archival location in order to use both versions; they do not interfere with each other.)

Drag the Kurzweil 3000 Version 5 application directly into the same folder containing your previous copy of Kurzweil 3000. You may optionally drag desired contents of the **Extras** folder to any location on your Macintosh. Installing the optional Read the Web functionality and Cepstral voices requires more steps; please refer to your installation guide for these features.

You will need to activate Version 5 using the new serial number.

CONTACTING KURZWEIL EDUCATIONAL SYSTEMS
